SUMMARY

I am a developer with a strong interest in Web and Android Development, with approximately three years of learning and hands-on experience. During this time, I have worked with various programming languages and technologies, including PHP (both native and frameworks such as Laravel and CodeIgniter), as well as Kotlin and Dart for mobile application development using the Flutter framework. I also have experience implementing MySQL databases in application development.

EXPERIENCE

Web Developer Intern - LPSK Ziho Karya Jayati

June 2024 – August 2024

- Designed application interfaces based on company requirements.
- Implemented UI designs into the web system using PHP and the Laravel framework.
- Conducted bug testing and DevOps processes to ensure the system was ready for company use.
- Implemented basic SEO optimization for the website.

Mobile Developer Intern - PT Candratama Granites

February 2025 – June 2025

- Analyzed system requirements to ensure alignment with company needs.
- Designed mobile application interfaces using Figma.
- Implemented UI designs into mobile applications using Dart and the Flutter framework.
- Conducted bug testing to ensure the application met initial system analysis requirements before internal use.

Programmer - Medify

August 2025 – November 2025

- Developed and enhanced a Hospital Information System (SIMRS) website.
- Developed application modules including ALP (Assessment, Reporting, and Printout).
- Built and implemented custom features based on system requirements

Freelance Mobile dan Web developer

December 2025 – Present

- Developed mobile applications and websites based on client requirements.
- Integrated databases and APIs to support application functionality.
- Performed testing, debugging, and performance optimization.
- Conducted regular maintenance and periodic system updates.

Programmer - Madina Mentari Teknologi

January – Present

- Analyzed system requirements to ensure alignment with company needs.
- Developed features according to assigned tasks and delivered them on schedule.
- Implemented features into the system using PHP and Vue.js.
- Conducted bug testing and ensured the system met initial analysis requirements before delivery to the client.

CERTIFICATIONS

- 1st Place Mathematics Olympiad Certificate (2020)
- Dicoding Bootcamp Certificate: Basic Web Programming
- Dicoding Bootcamp Certificate: Basic JavaScript Programming

EDUCATION

Senior High School 1 Kandat - Natural Sciences (IPA)

2019-2022

- Awarded 1st Place in the Mathematics Olympiad (2020)

State Polytechnic of Malang - Diploma (D3) in Informatics Engineering

2022-2025

- 3rd Place Winner – Best PKM Idea Competition (University Level)
- Participated in a lecturer-led PKM program for the development of a web and mobile application for Bank Sampah Sri Wilis, Kediri City.
- Actively participated in Dicoding bootcamps and continuously followed emerging technologies.

ADDITIONAL INFORMATION

- **Programming Languages:** Java, PHP, Python, Dart, Kotlin, Vue
- **Tools/Framework:** Flutter, Laravel, CodeIgniter, Android Studio, Firebase, MySQL, Git, Figma
- **Other Skills:** UI/UX Design dasar, Debugging, Version Control (Git), Responsive Design
- **Personal Traits:** Detail-oriented, fast learner, able to work independently and in a team
